- Teamwork
- Ethics and Responsibility

LANGUAGE

- Spanish
- French
- English

PROFILE

Passionate engineer and programmer with over 2 of experience in developing innovative and efficient technological solutions. I excel in my ability to work in teams and collaborate with different departments, ensuring that projects are delivered on time and meet quality standards.

WORK EXPERIENCE

Accenture

Marzo 2023- Now

Custom Software Engineering

- Implemented new critical workflows in the application, optimizing processes by 20% and reducing response times.
- Designed and implemented an intuitive user interface that increased user satisfaction by 18%, according to feedback surveys.
- Developed and implemented a demo version without backend requests for new users.
- Technologies used: Angular, Ionic, PrimeNg, RXJS, Cordova, agile methodologies (Scrum).

Accenture

Septiembre 2022- Marzo 2023

Internship Software Developer

- Implemented mock data for REST requests (to streamline development processes).
- Proactively resolved errors and performed constant updates to ensure optimal application performance.
- Technologies used: Angular, Ionic, PrimeNg, RXJS, Cordova, agile methodologies (Scrum).
